

IDEATION PHASE

Brainstorm & Idea Prioritization Template

Date	01 October 2026
Team ID	SWTID-2026-8273
Project Name	Implement Client Script & UI Policy (Incident)
Maximum Marks	As per template

Team Members: Team Member 1: _ M.Sanjana sree | Team Member 2: S.Sri sadha_ | Team Member 3: B.Mirnalini

Step-1: Team Gathering, Collaboration and Select the Problem Statement

Selected Problem Statement: Incident records may be submitted with incomplete, inconsistent, or incorrect information because field behavior and validation are not consistently enforced at the form level. This can affect incident triage, routing, reporting accuracy, SLA compliance, and overall service quality.

Step-2: Brainstorm, Idea Listing and Grouping

Dynamic Field Control

- Use UI Policies to make selected Incident fields mandatory under defined conditions.
- Use UI Policies to make fields visible/hidden or read-only when appropriate.

Automatic Data Handling

- Use Client Scripts to auto-populate or update field values based on user selections.
- Use onChange logic to respond immediately when Category, Impact, Urgency, or other relevant fields change.

Form Validation

- Use an onSubmit Client Script to validate required information before saving.
- Display clear messages and prevent submission when defined business conditions are not satisfied.

Quality & Usability

- Provide consistent user guidance through client-side messages.
- Reduce manual checking and improve consistency of Incident records.

Step-3: Idea Prioritization

Idea	Importance	Feasibility	Priority
UI Policy – mandatory / visibility / read-only control	High	High	High
onSubmit Client Script – validation before save	High	High	High
onChange Client Script – dynamic field updates	High	High	High
Auto-populate Incident values where rules apply	Medium	High	Medium
User guidance / validation messages	Medium	High	Medium

Selected solution direction: Combine UI Policies and Client Scripts so that Incident forms dynamically guide users, enforce required information, and validate records before submission.
